

Training

Health and Safety

Effective occupational Health and Safety Training can contribute to your organisations smooth running and can help you avoid the financial repercussions of accidents and occupational ill health.

Bradley Environmental offer tailored, highly customised and participative training focused on the needs of your business and safety objectives.

Training courses available include:

- IOSH Managing Safely
- IOSH Working Safely
- Health and Safety Training for Directors and Senior Managers
- Health and Safety Training for Managers and Supervisors
- Managing Contractors Training
- Asbestos Management and Responsibilities
- Fire Awareness and Marshal Training
- Manual Handling Awareness
- CoSHH Awareness Training
- Work at Height Safety Training
- Stress Awareness Training for Employees
- E-Learning Health and Safety Training

Courses can be held at one our four dedicated training centres or at your own premises. Up to 15 delegates are permitted on each course, the content of which will be tailored towards your own particular area of work.

Training

Bradley Environmental is one of the UK's most respected UKATA approved Asbestos Training providers with over 20 years of industry experience.

Our asbestos awareness, non-licensed and BOHS courses can be held at one of our dedicated training centres or at your own premises, contents will be tailored towards your particular area of work.

Asbestos Awareness

Our UKATA approved Asbestos Awareness course is designed for those who need an understanding of asbestos and its potential risks. We provide the popular:

- Asbestos Awareness Training
- Asbestos Awareness Refresher Training

Licensed and Non-Licensed

At Bradley Environmental we offer both Licensed and Non-Licensed training courses including:

- Licensed Removal Operative and Annual Refresher
- Licensed Removal Supervisor and Annual Refresher
- Non-Licensed Asbestos Removal Training

BOHS Courses

Bradley Environmental provide a range of BOHS 'P' Certificates including:

- P402 Building Surveys and Bulk Sampling for Asbestos
- P405 Management of Asbestos in Buildings

Training

Health and Safety E-Learning Training

As an employer you have a legal obligation to provide adequate Health and Safety training to your employees.

With rapid advances and availability of technology, E-Learning Health and Safety training courses have become a much more desirable and cost effective option to employers wishing to protect their employees and themselves.

We can offer delegates a variety of online and interactive Health and Safety E-Learning courses which are regularly updated and reviewed to ensure continued compliance with current legislation and guidance.

Current E-Learning courses:

- Health and Safety Awareness for Employees
- Manual Handling and Safe Lifting Awareness
- Display Screen Equipment Computer Safety
- Fire Safety Awareness
- Safe Driving Awareness
- Safe Working at Height Awareness
- Legionella Awareness
- Asbestos Awareness
- COSHH Awareness
- Stress Awareness

Once the course has been completed, a confirmation of results can be printed or saved as proof of completion. This can then be kept on record or in personal files as evidence of suitable training.
