Additional Comments:

Asbestos Sample Testing Credits:

Purchasing asbestos sample testing credits reserves laboratory analysis capacity for your order. Once any samples are submitted, the associated credits are deemed fully used and the order will be closed, regardless of the number of samples actually sent. Unused credits are non-refundable and non-transferable.

Asbestos Self Sampling Kit:

Each kit includes return packaging intended for all samples to be sent back together in a single shipment. Once the kit has been returned to the laboratory, the order will be considered complete and no additional samples may be submitted, even if fewer samples were originally included.

Sending us your samples - Choose from one of the following UKAS accredited asbestos testing laboratories:
