## Health and Safety Training

### Bradley Environmental Consultants – Health and Safety Training

**With over 25 years of industry experience, Bradley Environmental is one of the UK's most respected Health and Safety Training providers. Our trainers are all experienced consultants with at least 5 years' experience.**

We run regular training courses from our training centres in Birmingham, Wakefield, Preston and Wrexham. Our dedicated training department means that we can react quickly to clients' requirements, mobilising trainers in relatively short timescales, to anywhere we are required.

#### **IOSH Managing Safely Training – 3 Day Course**

The IOSH Managing Safely certificate is targeted at managers in any organisation or sector who are required to manage risk and resources. It aims to ensure that safety issues are appreciated by those who are employed as line managers and to enable these people to review their departmental systems for safety. The course also helps managers to introduce new controls and implement changes in order to reduce risks in the workplace.

#### **IOSH Working Safely Training – 1 Day Course**

IOSH Working Safely is aimed at people of all levels in any sector who need a grounding in the essentials of risk management. Delivered in a high-impact interactive package, this course covers all the basics and offers a completely new approach to health and safety training.

#### **IOSH Managing and Working Safely Online**

The IOSH Managing Safely qualification is intended for those who have health and safety management responsibilities in the workplace. The online course aims to equip managers and supervisors with the skills and know-how to evaluate their organisation's safety systems, identify areas for improvement and implement new control measures to reduce risk when appropriate.

The IOSH Working Safely Online course is suitable for any worker in any industry. This elearning course aims to ensure that delegates appreciate the importance of risk management and know how to make a difference to the health, safety and wellbeing of themselves and others by changing their behaviour.

#### **Bespoke Health and Safety Training**

We offer an extensive range of professional health and safety training courses that can be delivered on client premises. To ensure that your organisation gets the most out of the training programmes, our in-house courses can be tailored specifically for your employees to meet your individual needs. The bespoke training we offer includes:

- Legionella Awareness Training
- Health and Safety Awareness for Employees
- Health and Safety Training for Directors and Senior Managers
- Fire Awareness and Marshal Training
- COSHH Awareness Training
- Manual Handling Awareness Training
- Work at Height Awareness Training

#### **E-Learning**

We offer a variety of online health and safety courses that are updated and reviewed on a continual basis to ensure they comply with current guidance and legislation. The learning programmes we offer include:

- Asbestos Awareness
- COSHH Awareness
- Display Screen Equipment Awareness/Computer Safety
- Fire Safety Awareness
- Health and Safety Awareness for Employees
- Manual Handling Awareness/Safe Lifting
- Safe Driving Awareness
- Stress Awareness
- Working at Height
